DEATH SUMMONS MRS. OLE LARSON

Mrs. Augusta Larson, wife of Ole Larson of the Larson Lumber company of Bundy, died at five o'clock Friday afternoon in St. Mary's hospital, this city. Mrs. Larson was taken ill fifteen months ago; she suffered from gall stones and leakage of the heart. She underwent an operation and for a time it seemed as though she was on the road to permanent recovery. A few days before her death her condition suddenly became worse and she was again taken to the hospital, where she passed away at the hour above stated.

Deceased was born in Sweden in 1874 and came to America in 1884, locating in Cadillac, Mich. On December 9th, 1891, she became the wife of Ole Larson. Three children blessed this union, only one of whom, Albert, survives. In 1904 the Larson family became residents of Bundy and have since made their home there.

The funeral was conducted from the Norwegian Lutheran church Monday afternoon; Rev. Svartholm, officiated. Interment in Forest Home cemetery.

NEWLYWEDS HERE

Mr. and Mrs. James Kevan of Antigo are here on their wedding trip and are guests of their sister, Mrs. D. Mattoon. They were married in Antigo Saturday and the Journal gives the following account of the wedding:

The marriage of Miss Susan Fletcher, daughter of Mrs. I. Fletcher, to James Kevan, son of Mr. and Mrs. J. Kevan of this city took place at 8 o'clock this morning at St. John's church. The Rev. Father Sallie performed the ceremony. The couple were attended by Mrs. Irvin Feller, a sister of the bride, and George F. Crumney. The bride wore a dress of white crepe du chine and a hat to match. The wedding breakfast was served at the home of Mr. and Mrs. Irvin Feller. Only immediate relatives were present. Both of the young people are well known in this city and have a large number of friends. They will make their home in Antigo.

K. H. PATRICK TAKES BRIDE

K. H. Patrick of Aberdeen, S. D., was married last Thursday in Rothschild to Miss Tenia McCallin of that village. The ceremony was performed by Rev. James Blake of Stevens Point. Mr. Patrick was formerly an instructor in the Rhinelander high school and now has a like position in the Aberdeen high school.

LOCAL TEAM WINS BY CLOSE MARGIN

Hard Fought Game At Eagle River, Sunday Results In 4 To 3 Score

Rhinelander defeated Eagle River at Eagle River by a score of 4 to 3 in a hard fought game Sunday. Both teams played their best. The feature of the game was the Three base hits by Foster with two men on bases, and the double play by Blake on first base, unassisted. Rhinelander will play Wakefield at Antigo Sunday Aug. 15, and the winner of this game will play Antigo on some later date for the north-west championship.

A large crowd is expected to attend this game as this is the first time that Rhinelander ever had a team that was in the running for the championship. Zumach and Bonnie will be the battery for Rhinelander with Carroll ready to go in if needed.

Following is the box score of Sunday's game.

COMMENDS WORK OF MISS HAMILTON

The Cleveland, Ohio, Leader of recent date contained an excellent likeness of Miss Jean Hamilton of this city, who is teacher of music in the Akron, Ohio, high school, together with the following commendation of Miss Hamilton's work:

Miss Jean Hamilton, Parkview apartments, 70 North Prospect St., music teacher at Akron's West High school, is spending her summer vacation at her former home in Rhinelander, Wis.

Through her tireless efforts last season Miss Hamilton caused West High school to be recognized as having the most accomplished students in the art of music. She organized students' glee clubs and directed numerous successful recitals and entertainments.

Miss Hamilton will return to Akron late this month and will resume her work at West High at the opening of the fall term.

TRAINING SCHOOL OPENS AUG. 30

The Training school will open this year on Monday, August 30th. Catalogs will be out about the end of this week. A copy will be sent to any one writing for it to the Principal of the school or to the County Superintendent.

The Model School will open Monday, September 6th. Parents desiring to send their children to one of the first four grades will do well to notify either Miss Bernice Newell or the Principal as soon as possible. The number who can be admitted is limited and there is room for only a few additional children. Tuition is free. All necessary books and drawing materials are furnished free.

1915 ONEIDA COUNTY FAIR WILL DRAW LARGE CROWDS

The official premium lists of Oneida county's twentieth annual fair September 7, 8 and 9, are now being distributed by Arthur Taylor, secretary of the Agricultural association. Those who intend to make exhibits in any department at the fair should not fail to obtain copies of this book. Mr. Taylor and every officer of the association are tireless in their efforts to make the 1915 show the greatest fair in the history of the county. Attractive advertising matter is being prominently displayed in every nook and corner of this city and county and in towns outside Oneida county, within a radius of fifty miles of Rhinelander. Secretary Taylor feels confident that the fair will draw a banner crowd and with this end in view has engaged many first class amusements for the three big days. There will also be excellent racing programs and track events. A detailed announcement of these features will appear in a future issue.

A Word To The Farmers
To the farmers of Oneida county, Mr. Taylor makes the following statement in the premium book:

"The seeding season of 1915 was not ideal for the Oneida county farmer any more than it was for other sections of the state, and we hope that this will not deter each and every one interested in agriculture in this county, from doing his best to assist in making the Fair of 1915 a complete success and if each and every one of you will bring the best samples of your products, we shall be able to make a creditable showing.

The best products exhibited at this Fair will be taken to the State Fair, as was done a year ago, and the officers of the Oneida County Agricultural Society hope to be able to win as many honors in Milwaukee this year as was done last year."

Everybody Should Attend Fair
September 7, 8 and 9 will be the greatest holidays of the year. Everybody should feel it his duty as a progressive citizen to attend the fair. Come early and remain the whole three days. Bring along the family, your wife and children will enjoy it as well as yourself. Hotels and restaurants will arrange to accommodate the crowds; there will be plenty of good things to eat and a comfortable place to sleep. Farmers and their families who come from distant parts of the county are urged to come supplied with tents, bedding and cooking utensils and camp on the grounds. A more enjoyable outing could not be had.

It is planned to have a Children's Day when special entertainment will be provided for little folks.

Admission Fees
The same admission fees, which have prevailed at all past fairs, will be charged.

REFUSE ROOMS TO TUSKEGEE BOYS

Hotel keepers at Appleton are particular when it comes to keeping colored folk in their rooms says the Stevens Point Journal. The members of the quartette from the Tuskegee institute, a negro school in Alabama promoted by Booker T. Washington, were barred from Appleton hotels when they were there this week. This is the same negro quartette that sang in Rhinelander during Wisconsin week. The colored boys found no trouble in getting a place to stay while here.

"Application was made at three hotels and all refused the negroes admission," says the Appleton Evening Crescent in reporting the incident. "Twenty-four persons offered to take the singers to their homes for one entertainment, but it was decided that they return to either Neenah or Menasha, where they had spent the previous night."

"The quartette leader said that there are a lot worse places than Appleton, that in some cities they could not even get into a lunch room and were forced to go all day without food."

PAUL BUNYAN AGAIN

In the Grange department of the Antigo Farmer's Journal, of Tuesday, there appeared E. S. Shepard's famous poem "The Round River Drive."

The remarkable operations of that resourceful logger, Paul Bunyan, and his unrivaled crew, are related in clever verse of steepest or more stanzas. There is scarcely a man, woman or child in this neck of the woods who has not heard of Mr. Bunyan, but very few have heard or read the entire story of "The Round River Drive." Old timers and those not so old will take delight in reading the poem, which is an original product of Mr. Shepard's versatile pen, and which the New North will some day reprint.

LOCATES IN APPLETON

Dr. Raymond Lally of this city will leave the latter part of the week for Appleton where he will open dental parlors of his own and week for Appleton where he will feel that there is a good field in Appleton for him and has had this move in contemplation for some time. He is a graduate of Marquette University and for the last year he has been engaged in his profession in Rhinelander and towns in this vicinity. Success in his new location is wished him by his many friends here.

REED GETS THE BIG ONES

When it comes to catching big fish John Reed, who lives near Moon's lake, can always be relied upon to bring home the bacon, or rather the fish. In three days in succession this week John landed three muskies, one a day, weighing 24, 21 and 17 pounds each. If there is any fisherman in the county with a better record John would like to meet him.

RUSSELL FIFTH AMONG RIFLEMEN

Company L Marksman May Compete In Shoot At Jacksonville, Florida

First regiment leads in the number of men qualified for competition at Camp Douglas, Aug. 16 to 21, according to special orders just issued by the adjutant general's office in which announcement is made of the thirty-six men who made the best scores at the recent encampment.

Sixteen men were qualified by the First regiment, eleven by the Second, and nine men by the Third. Of the thirty-six men, eleven have taken part in national matches, but of these only six will be eligible this year.

Milwaukee qualified seven men, Madison and Fond du Lac four each, Hudson three; Fort Atkinson, Rhinelander, Sparta and Portage two each, and Oshkosh, Beloit, Appleton, Monroe, Neenah, Neillsville, Oconto, La Crosse and Marshfield one each.

The two qualified marksmen of Company L, this city, are Sergeant Henry Russell and Sergeant G. B. Lueck. According to the official list sent out from Madison, naming the thirty-six high men, Russell ranks fifth and Lueck is thirty-sixth.

Maj. R. B. McCoy will be in charge of the camp. Others detailed for duty are: Maj. C. R. Williams, quartermaster; Capt. Martin D. Imhoff, A. I. S. A. P., First Infantry; Capt. Earl S. Driver, First Infantry; Capt. Paul B. Clemans, A. I. S. A. P., Third Infantry; Capt. George A. Huntzicker, A. I. S. A. P., Second Infantry.

The men will receive pay for six days and transportation will be furnished.

The competition will determine who is to represent the state in the national match at Jacksonville. Twelve men and three alternates will be chosen.

ADDRESS YOUR LETTERS PLAINLY

A few days ago W. R. Smith, a new comer here, picked up a five and a ten dollar bill from the floor of the postoffice, stepped to the window and said, "You must have money to burn when you let it lay on the floor, I do not want it, find the owner." Pleased to say Mr. Smith has decided to make his home in Rhinelander. Probably there are many letters in this postoffice with money and money orders in them without a scratch of a pen on them, some of them without stamps. Possibly some of the writers are cursing the postmaster because they have not received an answer to their letters. Letters and packages should be well addressed and with the return card plainly thereon, always giving street number.

Opportunity is now offered all farmers and other producers to engage in the mail order business by disposing of their products through the medium of the parcel post. Never before has a greater opportunity been offered to producers to build up a profitable business. The post-office department agrees to advertise your business, your name, and the products you have for sale without cost to you. Experiments conducted so far indicate that the "Farm to Table" plan is a comparative success and is capable of being developed to much larger proportions. Thousands of consumers in Chicago are now receiving weekly shipments of farm products. Many more are willing to co-operate.

There is a big demand in Chicago for home-cured hams and bacon, smoked and fresh meats, poultry, eggs, butter, cheese, nuts, maple syrup, honey, jellies, preserves, fruits, vegetables, and other farm products at reasonable prices.

Information regarding containers, rates, and other matters concerning the Farm to Table plan may be had by consulting your rural carrier or postmaster.

CRESCENTS DEFEAT CARDINALS

The Rhinelander Cardinals were defeated again by Crescent Flats last Sunday at the fair grounds to the score of 8 to 9. The game was interesting all the way through and was the Cardinals' from the first inning until the first of the ninth. In this inning with two men out and two on bases Schafer dropped a fly and lost another game for the Cardinals. The Cardinals will not play the Tigers until later in the season. The Cardinals would like to hear from some fast out of town team Write to Harold Erick, Rhinelander, Wis.

Mr. and Mrs. D. H. Hart are in Chicago buying new goods for the Busy Store.

OGEMA DISTRICT CONFERENCE HERE

Swedish Lutheran Pastors Gather In This City For Four Days Meeting

Today a mission is being held by the pastors of the Ogema district of the Lutheran Superior Conference. In the afternoon at 2:30 sermons will be delivered by Rev. S. L. Wilson of Ironwood, Mich., and Rev. J. A. Nordling of Grand Rapids, Wis. In the evening the local pastor, Rev. Carl J. Silfversten, will be installed as pastor of the Swedish church by the Rev. A. T. Fant, president of the Conference, assisted by the pastors of the district.

Saturday morning the district holds its business session in church.

In the afternoon the Luther League Convention, with over 60 delegates from different parts of the district, will open. Conventions of this kind are a yearly occurrence in Rhinelander. In the afternoon on Saturday, through the courtesy of the automobile owners of the city, the visitors will be given an automobile ride through the city and the auto ride attention will be given to business of the convention and officers for the ensuing year elected. The present officers are: Rev. S. L. Wilson, Ironwood, Mich., President; Rev. Carl J. Silfversten, Rhinelander, Vice President; Miss Frieda Johnson, Rhinelander, Secretary; Miss Astrid Hansen, Bessemer, Treasurer; and Miss Anna Gronlund, Merrill, corresponding secretary, and Mauritz Johnson, Ironwood, statistician.

A program will be given in the church Saturday evening when musical and literary numbers will be given by talent from among the young people of the different Luther Leagues. After the program a general reception will be tendered the visitors by the local Luther Leagues.

Sunday morning at 10:30 regular services will be conducted and a sermon preached by one of the visiting pastors.

Again in the afternoon and also in the evening programs will be given by the visiting young people. The English language will be mostly used in the literary parts

EVENTS OF WEEK IN NEARBY TOWNS

Ladysmith—
Gordon Hanson, 19 years, of Barron, was drowned in the Flambeau river. He is the fifth to lose his life in these waters this season. Work has commenced on the erection of a new two story brick block for W. F. Pazel. Clarence Redmond who escaped from the county jail was recaptured a few hours later. Mrs. C. G. Hoover has returned from over a year's residence in Pekin, China, and is glad to be back in America.

New London—
Predictions for a record breaking barley crop were given a severe jolt by the rains of the past few days. The heads of the grain were so heavy that when they became water soaked the stalks were unable to hold up the weight and broke down. It is likely that some of the grain will be lost because of the difficulty of harvesting. The oat crop was similarly affected and the harvesting has been made very difficult.

Ashland—
A fox farm may be established at or near Ashland, in the near future by Talcott Barnes, son of the late ex-Congressman of Appleton. An effort to interest the federal government in the project will be made by Mr. Barnes. Congressman Thomas F. Knapp of the Ninth congressional district has agreed to do all he can to secure the aid of the department of agriculture in the enterprise. The representative will go to Washington and will present the matter to the secretary of agriculture and try to obtain financial assistance to start the farm. Land can be acquired at a small cost in northern Wisconsin, and Mr. Barnes can stock the farm with animals from a farm he is interested in at Saskatchewan, Canada.

Washburn—
Washburn can now boast of having the largest passenger train on the entire Omaha system. On Tuesday another coach was added to the train which carries workmen from this city to the plant of the DuPont Powder company, making a train of fourteen coaches. The Duluth train is sometimes made up of fourteen coaches, a large part of which is sleepers, but the train running out of the city consists entirely of coaches. About one thousand men are now employed at the Barksdale plant on three eight hour shifts.

Clintonville—
The enterprising business men, headed by Mayor Felsow, are arranging a big booster trip to take in a number of different towns and cities in the county. The trip will be made Labor Day, which is Monday, Sept. 6th. It is expected that about fifty automobile loads of Clintonville boosters, headed by the Clintonville Military Band will make the trip and boost for one of the best cities in the county. Everybody who owns or can rent an automobile is invited to join the crowd.

Gladstone—
Between fifty and sixty men, demanding that their former wages be restored, walked out of the flooring mill of the J. Stephenson company at Wells. The feeling has been running high among the men at Wells for some weeks because their wages of last summer were not restored. A year ago, it is said, that the laborers were being paid at the rate of \$1.75 per day, but early last fall the wages were cut to figures ranging from \$1.20 to \$1.40. The men declare that they are unable to properly support their families on these wages and they will not return until the old scale is restored.

Harley—
A great deal of ore is being moved from the Gogebic range this season, and the Chicago & Northwestern railroad, which handles most of the product from the mines to the docks, has already hauled 200,000 tons more than it did up to this time last year. However, 1914, was a slack year in the iron ore business, and it is unjust to make comparisons with an off year. It is now believed that the shipments from this range will be about equal with the 1913 movement, when more iron ore went down the lakes than during any other one year since iron ore was first mined in the Lake Superior district.

FOR OUR FARMER FRIENDS

To prevent losses from late blight of potatoes, some cases of which have just been reported from central and southern parts of the state to the department of Plant Pathology of the College of Agriculture, spray the vines thoroughly with Bordeaux mixture.

Rainy weather is especially favorable to the development of the disease. It is well, therefore, for potato growers to watch the progress of the disease in other sections, and to keep a sharp lookout in their own communities for signs of blight. To avoid the trouble, apply the Bordeaux mixture before the disease appears in the field.

Serious damage to the potato crop of last year was caused by this late blight, and prices were lowered because of it, according to J. G. Milward, in charge of potato seed certification work in the state. The disease not only destroys the vines in the field, but also causes tuber rot, both on the field at harvest time and during storage.

Bordeaux mixture, made up of 3 pounds of copper sulphate (blue limestone), 10 pounds of lime, and 100 gallons of water will be found satisfactory in controlling the blight. To be effective against the disease, however, the Bordeaux must be applied with a pressure spray pump that will put the liquid on under from 75 to 100 pounds of pressure. Where a single nozzle pump is used, it is usually necessary to apply the mixture to the vines twice, spraying them from opposite directions. Best results are obtained when spraying is done at intervals of about ten days, making four applications during the season.

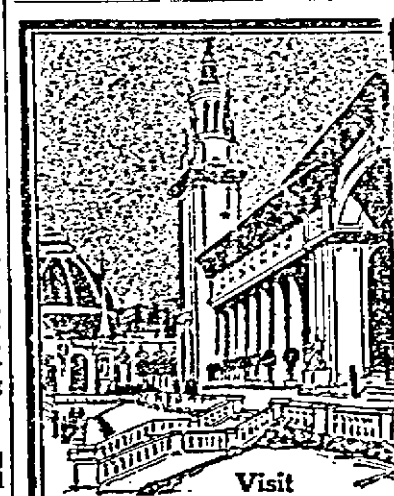

Good Live Stock Pays.
It makes farming permanent. It returns highest price for farm crops. It furnishes market for waste feeds. It reduces bulk of marketable crops. It distributes labor throughout the year. It means cleaner farms. It makes income steady. It helps to keep boys on the farm. It makes farm life more pleasant.

No other state in the Union is so well fortified against a soft corn harvest, if there should be one this year, as Wisconsin, with more than 45,000 silos.

This number will be greatly increased during the next few weeks, for August is the state's great silo building month. With the small grain harvest out of the way, farmers in all parts of the state, will turn their energies toward getting the silos up and ready to beat Jack Frost to the corn crop. Many farmers who had not intended building their silos until another season, are changing their plans, as many think "a silo this year may be worth two next year."

When silo filling comes round,

Buy it in Rhinelander.

Wisconsin will be turned into one great canning factory, storing up the corn crop in good shape for the live stock.

Information on silo questions will be furnished by the College of Agriculture, to farmers of the state who request it.

More than one thousand reports on alfalfa growing in Wisconsin have been received by the Alfalfa Order of the Wisconsin Agricultural Experiment Association. These reports clearly show that the principal causes for failures with alfalfa in Wisconsin are:

1. Failure to inoculate the soil.
2. Attempting to grow alfalfa on sour or acid soils without liming the land.
3. Poor preparation of the seed bed and improper methods of seeding.
4. Weeds—heavy growths of which crowd out the alfalfa.
5. Too thick seeding of the nurse crop. Not over one bushel of grain should be sown with the alfalfa and if oats is used it should be cut for hay.
6. Late seeding. Seeding after August 15 is a dangerous practice. Sufficient growth is often not secured before cold weather sets in so that the alfalfa may stand the winter.
7. Late cutting. Cutting alfalfa after the first week in September has resulted in serious winter-killing of many otherwise good stands of alfalfa. Alfalfa should have at least six to eight inches growth to afford sufficient winter protection.
8. Pasturing. Late and close pasturing are particularly dangerous.
9. Poor soils. Although alfalfa is a great soil enricher it requires at least a medium fertile soil. Poor soils should be well manured.
10. Low, flat, poorly drained soils. Alfalfa requires a well drained field. On flat, heavy clay soils which hold water from melting snows and heavy rains in the early spring alfalfa may be heaved out by alternate freezing and thawing weather. A sloping field which will provide ample run-off for surface water is more desirable.

"Under the new law, there will be no charge for nursery inspection, or for licenses to sell nursery stock. Proper licenses must be secured from the state entomologist, however, before sales of nursery stock can be made."

This statement was recently made by J. G. Sanders, of the Economic Entomology department of the University of Wisconsin, who for a number of years has had charge of the nursery inspection work.

The law recently passed, creating a board of agriculture, transfers this work to the Capitol, and places it in charge of the state entomologist, who will soon be appointed by the new Commissioner.

Triumphs Of Peace
It is significant that the names of Doctors Findley, Carroll, Reed, Lazar and Agramonte are not among the list of thousands of persons and things dwell upon in the last edition of the Encyclopedia Britannica. And yet these men, through their discovery of the means by which yellow fever is spread and by establishing the means of preventing it, made a contribution to society which has already saved thousands upon thousands of lives and millions upon millions of dollars.

In the same encyclopedia, you may search in vain for the name of Nicholas Senn, a surgeon who, by his own work and especially by his teaching, has directly and indirectly put life-saving knowledge to work for the everlasting benefit of mankind. And yet considerable space is devoted to acquainting students with the prize ring accomplishments of Tom Sayers, one time champion pugilist of the world.

Again, you may find long lists of names of minor poets, painters and essayists, the very existence of many of whom would long since have passed from recollection were it not for such memorials as the encyclopedia furnish.

It is singular how values in knowledge and service and success have been and are still being gauged. Let a man slaughter enough in warfare and his name and fame will be perpetuated. Let him, however, by personal sacrifice of money, health, or even of life itself, secure life, health and wealth to others and his name will be glorified by his own craft and guild—if at all.

Why should we not begin to exalt men of peace, particularly when we see where men of war are leading the world today? And in the pursuits of peace what labor is more worth while than that which prevents disease and robs death of its sting? It seems to me that no accomplishment of an individual, of a community, or of a state can equal that of saving the lives and insuring the health of one's fellow beings.

Round about you there are babies who will sicken and die during the hot weather for the want of a little intelligent care, of a nickel's worth of ice, of a clean bottle of milk. Can you imagine any greater joy than would come to you with a consciousness that you, by your own effort, had served the life and prevented the pains of such a one?

MUST NOT KILL DOES AND FAWNS

An amendment to the fish and game laws prohibits the killing of does and fawns in this state. The new law goes into effect November 11. The law also prohibits the shipments of a carcass of a doe or fawn by any railway company, express line or other common carrier, and prohibits any person or corporation from having possession of a carcass of any doe or fawn at any time. A fine of \$25 or \$50, or imprisonment not to exceed three months, is the penalty for the violation of this statute.

It is expected by the state game warden and his assistants and by associations interested in the protection of game in Wisconsin, that the new law will not only result in better protection of deer, but will be an absolute safeguard to the lives of hunters in the north woods.

Under the new law in shooting a deer it will be necessary for the sportsman to see his target and know what he is shooting at in order to avoid violation of the statute. Heretofore the great danger in the woods has been carelessness of the inexperienced hunter in firing at a moving object in the dense timber or tangled slashing. Expecting to see deer driven out by the drivers, and seeing a movement in the brush, a shot has been fired at the moving object, and too late the hunter has ascertained that he has shot his companions or another hunter. An accident of this character can not occur under the new law, if the hunter intends to live up to the statutes, say experienced deer hunters. He must see the antlers on his game before he fires. It is said by game wardens that fully 65 per cent of the deer killed in Wisconsin between November 10 and December 1 last were does.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body, and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building tonic, free from alcohol or any harmful drugs. Try it.

SHORTEN SETTLEMENT TIME

Time required for the settlement of the estates of deceased persons is shortened by a law which has just passed the Wisconsin legislature and goes into effect September 1st. The law provides that the minimum time for creditors to file claims may be made four months instead of six months as provided under the present statute. It also advances the time when notice to creditors is first given to the very commencement of the proceeding. Heretofore notice to creditors could not be given until the administrator of executor had qualified, which was ordinarily about one month after the proceeding was started. Under the new law the first notice of the case and the second notice, which is the notice to creditors may be combined.

Every time the small boy glances at the calendar this month his face takes on a sad expression. His vacation days are all too rapidly approaching the end.

By a majority of 469 votes over his opponent, J. H. Hile, in a special recall election Tuesday, Joseph Konkol retains his position as mayor of Superior. It looks as though "Silver Joe" is a permanent fixture as this was the second attempt to recall him in less than two years.

Henry Ford is one American manufacturer who regards human life above dollars and cents. In a recent interview in New York Mr. Ford said that his company would make no war supplies for the nations of Europe.

A careful investigation of the sentiment of this city makes us feel that the people are determined to have the Bond Company check the ex-treasurer's accounts from the day he took office, whether the bonds can be collected or not. They wish to know how much they have lost by defalcation, forgery and embezzlement. The impression is given out that many of the individual bonds have disappeared and that the amounts and the bondsmen are not even recorded. Whether such is the case or not, nothing will satisfy the people except a complete check up and those officers who defy the will of the people will regret it in the future if they wish to serve in public life.

GENTRY SHOWS COMING AUG. 25

The small boys and perhaps many of the big boys will hail with joy the announcement that Rhinelander is to have a circus. The contracting agent for Gentry Bros' trained animal show was in the city Wednesday arranging for the appearance of this attraction here Wednesday, August 25. A contract for every available bill board space in the city was made with H. C. Zander and large orders were left with local dealers for feed for the animals and food for the army of employees with the show. Advertising car No. 1 will arrive here Monday and a crew of bill posters will decorate the city and surrounding country with gaudy lithographs proclaiming the coming of the show and its many features.

Gentry Bros' circus is one of the oldest and best known amusement enterprises of its kind on the road today. It differs from the ordinary circus in the fact that nearly all acts are performed by trained animals. The show travels on its own special train and gives a grand free street parade the morning of every exhibition day.

HE'S A BOOSTER

H. E. Keppler, former ice dealer of this city, has unbounded faith in the future growth and prosperity of Rhinelander. At present he is building a house on north Brown street and is improving and remodeling his houses on Anderson street and Conroy street. He also plans other building operations here within the coming year.

Mr. Keppler came to Rhinelander thirty years ago this month and during that time has been one of the staunch boosters. He says that he made most of his money here and he believes in spending it here.

MAN VICTIM OF KNIFE ARTIST

Emil Robinson Murdered Near
Boulder—Frank Kelley
Under Arrest

Sheriff Hall, District Attorney Wiegand and Coroner Gaffney returned Monday night from Boulder Junction with Frank Kelley of Wildcat lake who is charged with the murder of Emil Robinson which occurred at Boulder Junction Sunday. Robinson's body was found late Sunday afternoon in an outhouse at the rear of Poquette's boarding house at Boulder by the bartender. A circular knife wound, running from the left breast to the right breast caused instant death—heart was ripped open and three ribs and point of the breast severed.

At the time of the tragedy it is said there were but three people around the saloon besides the bartender—Robinson and a chum and Kelley. Robinson, an employee at Brooks & Ross camp five miles north of Boulder Junction, had walked down with a friend that afternoon. He was a man about 24 years of age and of a quiet disposition.

Frank Kelley, the last man seen with Robinson, lives on Wildcat lake. He is about fifty-six years old and a brother to the late Matt Kelley who ran a place at Wildcat up to two years ago. Kelly was caught by the officers near his shack late yesterday afternoon.

His preliminary hearing will be heard before Judge Higgins Saturday—Vilas County News.

OKLAHOMA MAN WEDS MISS DAYTON

Miss Lucy Ruth Dayton, daughter of Mr. and Mrs. Reuben C. Dayton, was united in marriage Wednesday evening to Mr. Wayne Emerson Watson of Stillwater, Okla. The ceremony was performed by Rev. Grant Clark at the Dayton residence 221 Dahl street. The attendants were Miss Florence Watson, of Stillwater, Okla., sister of the groom, and Mr. James Gray of Milaca, Minn. Guests from outside the city were Mr. and Mrs. L. C. Parmenter, and George G. Steckede of Grand Rapids, Mich., and Mr. Glen Watson of Stillwater, Okla.

Mr. and Mrs. Watson have departed on a brief wedding trip and will be met here after September twenty-fifth in Milaca, Minn.

The bride is a young lady of many accomplishments and has until recently been engaged in the profession of teaching. She is a graduate of the Rhinelander high school and Stout Institute.

Mr. Watson, while practically a stranger in Rhinelander, appears to be a most capable young man and has favorably impressed those who have met him. He is an agricultural expert and is following that work in Milaca.

Friends join in extending congratulations to the happy twain.

KILLED LEATHER SNAKE
A leather snake, a species now almost extinct, was killed by a member of a camping party up the river Wednesday. This snake, although having the habit of coiling like the deadly rattler, just before it springs at its victim, is perfectly harmless and will not move when approached but calmly allows being killed by its enemies. This fact accounts for its rarity in these parts. The specimen killed Wednesday was about thirty inches in length.

Use for Old Newspapers.
Old newspapers form the basis of most of the boxes in which goods are kept in the furnishing stores. When ground into pulp and treated with certain chemicals they form ideal material for the pasteboard used in the cheapest as well as the more expensive grades of boxes.

Technical Error.

No Bacteria on Gold.
Microbes are never found on gold coins, while paper money is an ideal home for them, and every old bank note is a menace of disease. One authority has stated his belief that gold acts as a bactericide.

CARRANZA DEFIES UNITED STATES

Note Says Mexicans View With
Displeasure Action Of
Americans

Washington, D. C., August 11.—Gen. Carranza, through his Washington agents, today notified Secretary Lansing that "the Mexican people view with displeasure" any attempt tending to frustrate the success of Carranza's armed forces.

Carranza's message referred to the Pan-American conference and was taken as plainly signifying he would not agree with its action toward Mexican affairs.

Carranza also has sent a similar notification to the diplomatic representatives of all the Latin-American republics participating in the Mexican conference, saying that any attempt between them and the American government to solve the internal situation of Mexico, "would involve an act which could not be looked upon with levity, as it would mean on the part of the Latin American nations the acceptance of the precedent that they can take part in any internal affairs of a sister nation with the co-operation of the United States, something absolutely undesirable, not only insofar as it may affect the relations between the Latin-American nations themselves, and also because it might involve the moral support of any future discussions which grow out of similar affairs."

Carranza's communication delivered on his behalf by the Washington agent, Eleio Arredondo, was regarded as little less than a defiance of the United States in its effort to bring all the Mexican factions into a conference for peaceful settlement of Mexican affairs.

Washington, D. C., August 10.—With two United States battleships speeding under full steam to Vera Cruz, where anti-American riots are feared, with additional troops rushing to the Texas border, where Mexican landits are ravaging Texas towns; and with the Pan-American conference sitting in New York in effort to bring about Mexican peace, Gen. Carranza has openly defied the United States and the Pan-American republics.

Carranza, through his Washington agents, today notified Secretary Lansing that:

"The Mexican people view with displeasure" any attempt tending to frustrate the success of Carranza's armed forces.

CARE IN FEEDING NEW CORN
Severe Losses May Be Avoided by Exercising Judgment in Changing From One Field to Another.

Unless hogs have plenty of pasture and forage crops the change of feed must be gradual to escape derangement of digestion and disordered stomach. It means a little more work to feed supplemental feed and old corn with the new, but the advantages are so great that feeders should not neglect that which is safest, and promises the best returns.

Hogs relish new corn, and we are often tempted to feed too much at the start. At least a month's time should be taken to bring them from pasture and forage crops to a full feed of corn. It requires more bushels of new corn to make the same gain that sound corn will make. Hence it is advantageous, both from the standpoint of health and profit, to feed some old corn while bringing the hogs to a full feed of new corn. Severe losses may be avoided by the exercise of care and judgment in feeding new corn.

Growing Potatoes.
To guard against disease and inferior quality of potatoes it is necessary to rotate crops.

Grow alfalfa, clover or peas two or three years, grain one year and potatoes one year is a good system.

Select good seed. Too much indifference with regard to the quality of seed results in crops of inferior quality and the amount consumed is far less than if a good quality is produced.

Horse Dents.
Don't stand your horse on an inclined plank floor.
Don't allow the horse to stand in a draft.
Don't wait until the horse's shoulders are sore before properly fitting the collar.

Brutal Treatment.
The farmer who drives his horses until they are foaming with sweat and then stands them in the cold winds has certainly lost the milk of human kindness from his breast.

Worth Knowing.
One of the quickest known ways of dispelling a headache is to give some of the muscles—those of the legs, for instance—a little hard, sharp work to do. The reason is obvious. Muscular exertion flushes the parts engaged in it, and so depletes the brain. When your head aches take a stiff walk or a short bicycle ride.

More Important Things.
The latest estimate places the age of the earth at 100,000,000 years. However, the age of the earth isn't half as important to some men as the age of the liquor they consume.

SUMMER FEED FOR THE COW

Good Plan to Have Pastures Divided Into Number of Fields—Supplement With Corn Silage.

During the hot and dry summer months I aim to have the pastures divided into a number of fields so that when grass becomes short the herd can be turned from one field into another, says a writer in an exchange. I find this far better than having the herd on the entire pasture all the time.

I grow considerable medium red clover for seed and several fields are pastured until the middle of June. These fields will usually yield more seed and of a better quality than when the first cutting is used for hay. Clover is sown with all the grain and pastured when the grain is off. Sometimes when I fail to have a catch of clover the stubble is disked and oats sown for fall pasture.

A bluegrass lot adjoining the barn has been used as a night pasture for six years. The droppings of the herd keep this in good condition practically all summer. This pasture is a great convenience as we need not look for the cows in the morning.

When pastures are poor they are supplemented with corn silage when there is some on hand. I find silage a cheaper and better feed than soiling crops. One can feed this any time, while soiling crops are very disagreeable to handle in wet weather.

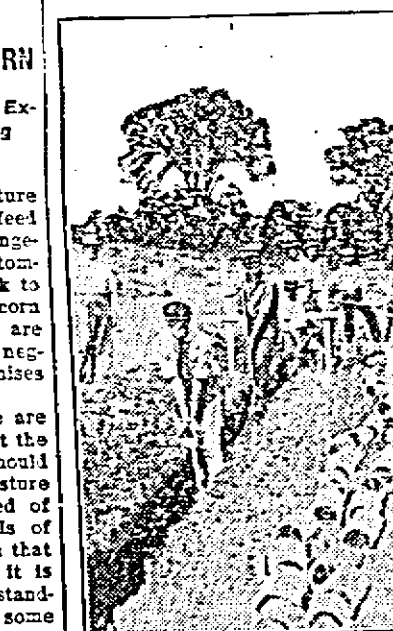

More silage can be grown from an acre than any soiling crop and cows produce as well and better than when fed soiling feeds. The size of my silo does not always permit me to have sufficient silage for summer feeding, and a smaller one will be built so that I will have plenty of summer feed regardless of weather conditions.

BENEFIT OF TILE DRAINAGE

Practice Has Been Found to Be of Immense Value in Securing Better Condition of Soil.

Tile drainage has been found to be of immense value in securing better soil conditions. A wet cold soil will not produce the best crops. Tile drainage possesses the following advantages:

1. Removes the free water from the soil.
2. Makes it possible for the air to circulate more freely through the soil, thus warming the soil and adding in the development of desirable soil processes.
3. Lowers the water level and increases the feeding area for plant roots.
4. Makes it possible for water from rains and snows to pass down through

Students Constructing Tile Drain.

the soil rather than over the surface, and thus reduces soil washing or erosion.

5. Tile drainage also results in large crops. The soils and crops department of Purdue university experiment station have conducted experiments comparing yields of tilled and untiled lands, showing an average yield of 76.1 bushels per acre (of corn) on the tilled land and 68.1 bushels per acre on the untiled land.

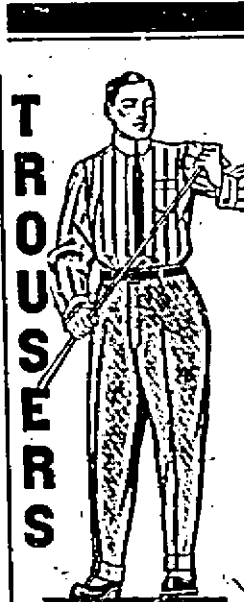

ADVANTAGES OF SPRING PIGS

Less Food Required for Pound of Gain in Warm Weather Than in Cold, With Young Animals.

Some of the advantages of having pigs farrowed in the spring, fed well during the summer and marketed in good season in the fall, are that nearly all of the feeding is done in warm weather and it requires less food for a pound of gain in warm weather than in cold.

The gain is greater in proportion to the feed consumed on the young animal than on the older ones. By reducing the period of feeding to nine months or less, the risk of loss by disease or other causes is greatly lessened.

Colt Neglect.
A very common neglect of the feeder in his failure to keep the colt growing as it should the first year of its life. Many horses that go to market each year lacking size to qualify as drafters might easily have been put in that class if properly fed during the first year of their lives. If the colt is properly fed the first year of its life, the ration is not quite so exacting as to variety thereafter, but should gradually be increased a little until the colt is matured.

MRS. DONALDSON LAID TO REST

(Contributed By Her Pastor)
Mrs. Abbie Bourne Donaldson departed this life, Wednesday August 11th.

Mrs. Donaldson, who was Miss Abbie Eliza Bourne, was born August 28th, 1842, at Bristol, Kenosha Co., Wisconsin. On April 12th, 1867 she was married to Edson B. Donaldson and her married life was spent in Merrill, Stevens Point, Green Bay and Grand Rapids.

In 1891 she came to Rhinelander with her only child Carl Home Donaldson, who had graduated from the high school the previous year. To the liberal education of her son she gave every care and attention, that he might be fitted for a successful career. Her husband died about the time the son reached his majority.

For about 30 years Mrs. Donaldson has been more or less of an invalid and of late years has suffered much from indigestion and from the heart and kidneys. She has spent a number of winters in Biloxi, Miss., and in California. Last fall she took a trip of several months, going to Minneapolis and Washington, D. C., in the hopes of bettering her health. Upon her return to Rhinelander, although in many ways she seemed brighter and better, yet frequent heart attacks were alarming. On Wednesday of last week, sometime between 2 and 5:30 p. m., evidently in one of these attacks of her heart, she went peacefully to sleep, to wake up in another world.

Mrs. Donaldson was a member of the local Woman's Club and a member of St. Augustine's Guild. She was a woman of broad culture and education, well-read, and well posted upon music, art and literature. She was a charming conversationalist, abreast with the current events of the day as well as a student of history. Her kindness to the poor was quiet and unassuming.

Mr. C. H. Donaldson has the sympathy of his many friends, in his bereavement and in the shock which he sustained in finding his mother as he did, when going to her on one of his many and unceasing errands of love. She was a mother to whom her son owes much and he is a son of whom she was justly proud. His filial devotion is deep and earnest. His faithfulness and tender care watched over her constantly during her years of illness. In the midst of his sorrow, we pray for him the comforts of our holy religion.

Mrs. Donaldson was laid to rest Friday afternoon. The burial office was read at 2:30 p. m. by the Vicar of St. Augustine's church, of which she was a member. A quartette choir sang "Lead, Kindly Light" and "Abide With Me." The grave was covered with many handsome floral tributes.

May her soul rest in peace, and may light perpetual shine upon her.

Miss Frances Coyne, who was the guest of Mr. and Mrs. F. A. Lowell, returned to Madison Wednesday.

What the Editor Knows.
In the schools of journalism they are teaching that an editor needs to know a great deal about a great many things, and that he cannot possibly know too much; and that is right, but the most important thing for an editor to know is how little comparatively any editor can know.—Boston Globe

Fish Fatten on Alfalfa.
The unusual size of some game fish caught in irrigation ditches in Washington led to the belief that they had fattened themselves by eating alfalfa and an investigation proved the theory correct.

BOY LOSES LIFE IN BOOM LAKE

Rubin Baraba, Aged 6, Drowns
Wednesday While Playing
In Row Boat

Rubin Baraba, aged six, son of Mr. and Mrs. Paul Baraba of 615 Mason street, lost his life by drowning in Boom lake, Wednesday morning. The little boy with several other children, is said to have been playing in the lake, close to shore, near Brown Brothers' mill, when he fell from a row boat and sank below the surface. Divers recovered the body within an hour and a quarter after the accident. Attempts at resuscitation proved futile.

The accident is an unusually sad one as the family are in poor circumstances and have had considerable misfortune of late. The father is practically blind and at present one of the children, a little girl, is critically ill with small hopes for her recovery.

CLERK'S ANNUAL REPORT

All, but a very few, district clerk's annual reports were in on time, July 25, this year. The superintendent is also pleased to say that most of them were received in fine shape. In a few cases only were mistakes made, and these were due to error in copying from one report to another. These mistakes were easily adjusted. I wish to suggest for the benefit of a few for next year that these reports should be made out with pen and ink. From indications the school census this year has increased a little. The following were the most common errors detected:

1. Balance on hand June 30, 1914, did not check with amount reported last year.
2. Mistake in adding or possibly in copying.
3. The state and county money was not reported separately.
4. The report was not sworn to, or in a few cases not properly sworn to.
5. The census statistics summary on page 4 was not filled in.
6. A number of reports were carelessly made out with lead pencils. Much depends on the accuracy of this report.

City Attorney Thomas Morse, Leo Hildebrand, Louis Fenelon and Ray Slossen plan to leave Saturday for Mercer on a week's fishing trip.

William DeByle of Grand Rapids, Mich., is visiting his brother, Geo. De Byle.

Mr. and Mrs. F. A. Lowell and daughter, Miss Frances, and Miss Frances Coyne of Madison returned Tuesday from a two days auto trip to Minocqua and the Lac du Flambeau reservation.

Mr. and Mrs. W. P. Colburn and son returned the first of the week from a two months stay in the west. They visited the California exposition and many other places of interest and report a very pleasant trip.

The two bear cubs owned by J. B. Rotnour have been sent to Bert Brown's farm up the Wisconsin river where they will have plenty of room in which to disport themselves. The bears are too large to be longer kept in the city.

George Carroll goes to Hurley Sunday where he will pitch for the Hurley team in a game with Odanah. George has a new throw which he discovered by accident over a year ago and which he has perfected by constant practice. Hurley fans will have a chance to see this new ball Sunday.

The Misses Marian McKay, Claire Noel, Marie Hnilicka, Florence Kays and Irene and Norma Jacobs of Green Bay, are enjoying a week's outing at the Johnson cottage up the Wisconsin river. The latter two are nieces of Mrs. H. E. Osborne, who is acting as chaperone for the party.

L. H. Wheeler and family of Chicago, are to become residents of Wausau and are now making preparations to move to this city at once. Mr. Wheeler is the senior member of the Wheeler-Timlin Lumber company with offices in Chicago and this city. Wausau welcomes the addition of this family to its midst.—Wausau Pilot.

Miss Marie Hnilicka, one of the party of Green Bay girls that are spending a week at the Johnson cottage up river, caught a four and a half pound bass Wednesday while fishing near the cottage. Imbedded in the gills of the fish was a crudely made fish hook attached to a piece of fine wire a foot or more long. It was evidently hand made, probably by some Indian or settler further up the river and from all appearances the fish had carried it about for some time.

HELD FOR ILLEGAL VOTING

The hearing of John Burbatt of McNaughton, charged with illegal voting, was adjourned in municipal court Tuesday until next Thursday. Burbatt is alleged to have illegally voted at the election in November, 1914. Henry Wubker, Sr., made the complaint against him.

AT BAPTIST CHURCH

"The Second Coming of Christ." Jesus Christ, who was crucified, buried, and rose again the third day and afterward ascended into heaven is coming again to this earth. When will he come? How will he come? What bearing has the present European war on his coming? These topics will be discussed at the First Baptist church Sunday evening. All are welcome. Services 7:30. Bible School 10 a. m. Morning worship 11 a. m.

WIFE BEATER SENTENCED

In Judge Smith's court today, Charles Gilbert was sentenced to six months in the county jail on an assault and battery charge. The complaint was made by Gilbert's wife who claims that he attacked and beat her.

FINED \$5 AND COSTS

L. Emmerling was fined \$5 and costs in municipal court for violating a city ordinance by operating a slaughter house within the city limits.

Must Be

A Boston professor says that a man is at his best on January 15. That must be pay day with him.

The Submarine.

To get a submarine ready for diving water is admitted into the "ballast" tanks. To keep the vessel on an even keel water is taken into the "trimming tanks." By means of these tanks the vessel is made to sink or rise, and to preserve the right position.

When Dad Is All Right.

He may have a greasy hat and the seat of his pants may be shiny, but if a man's children have their noses flattened against the window pane a half hour before he is due home to supper, you can trust him with anything you have. He is all right.—Cincinnati Enquirer.

Loyal to Aunt May.

Aunt May was the favorite aunt of Little Ellen. One day the former said to her, naming three other aunts, "Which do you like best, Aunt Anna, Aunt Emily or Aunt Palmer?" Little Ellen looked thoughtful a moment and then said, "Why, I like Aunt Anna better than Aunt Palmer, but I don't like anybody best what isn't you."

Percussion Caps.

Percussion caps (taking the place of the flint lock) came into use about 1820. Snider's system of breech-loading was invented in 1853, although there had been attempts made at Snider's achievement several years earlier than that date. The muzzle-loaders held on until the seventies, when they were practically discarded by all armies.

Lesson From the Lhy.

How easily we lose poles, swept by the current of life! Our root is not deep enough. Consider the lily resting on the face of the waters, its roots far below. How serene it rides the ripples, and how confidently it has sought the light, that its life may expand therein above the turbulence of the waves!—Trinitas and Sanctitas.

Consoling Philosophy.

Perhaps if one were browsing around amusing himself trying to hit upon the most consoling bit of philosophy ever written, this of Socrates would be easy to surpass. "If all our misfortunes were laid in one heap, whence every one must take an equal portion, most people would be content to take their own and depart."

Puzzle for Papa.

Small Sadie's father is a traveling man, and during his absence a new baby arrived. Upon his return Sadie met him at the door and exclaimed: "Oh, papa, you can't guess who was born while you were away!"

Magnetic Mountains.

The mountains of Porto Rico are so magnetic that they attract surveyors' plumb lines and it has been found that some old surveys are incorrect by half a mile or more.

Lingulate Crows. Nearly all the true crows, as well as many of their near relatives, will pick up more or less of human speech in captivity, and it is sometimes hard to believe that the aliveness with which they invest their remarks, their apness and intonation, are altogether accidental.

Conditions of Contest

In one or more ads on this page a word has been intentionally left out. Read all the ads carefully and see if you can supply the missing word. Write your answer plainly on a sheet of paper and sign your name to same then put it into a plain envelope, then bring or send it to the New North Office. Only adults can enter their names in this contest.

In writing your answer specify the ads and the lines in the ads in which the words are missing, giving the correct words.

These ads will run once per week for ten weeks in this paper and one dollar will be given for the first correct answer in each week's contest. The envelopes will be placed in a box and drawn out; the first correct answer will be entitled to the dollar.

An all-star cast headed by Jane Miller, daughter of the State Treasurer of Missouri and formerly leading woman with the mammoth production of "Life" at the Manhattan Opera House, New York City, is seen in "From the Valley of the Missing" a picture version of Grace Miller White's world famous novel made for the Fox Film Corporation, William Fox, president. The picture, which is produced by Frank Powell, calls for artists of unusual ability.

Jane Miller plays Ann Shellington and all the great ability she displayed in "Life" a performance which with great charm and distinction was acclaimed by the press of the metropolis. Arleen Hackett, contributes a wonderfully powerful character study as "Scrappy" the unfortunate woman of the river, the poor forlorn creature whose life is one long tragedy. Miss Hackett starred in "Today" and other big productions and is an actress of an ability which David Belasco, declares is distinctly out of the ordinary. Majestic Theater, Monday, August 16.
